Utenforskap på skolen

Utenforskap på skolen - handlingsplanen

- 01** Bygge opp under mangfold og
redusere mangfoldsgjeldinga
strekksarsordet til høyt givernom å
og styrke samholdet mellom elever
og ansatte (HEI-UKA)
- 02** Klassens time skal bli brukt aktivt
for å skape trygge miljøer og ta
opp temaer som ellers ikke finner
sted i skolehverdagen.
- 03** Styrke elevrådets rolle på
skolene. Understrekke
viktigheten av elevdemokrati
overfor skoleledelsene

02

Ensomhet

ENSONHET

Vi føler alle på ensomhet fra tid til annen, her er noen eksempler fra skolehverdagen:

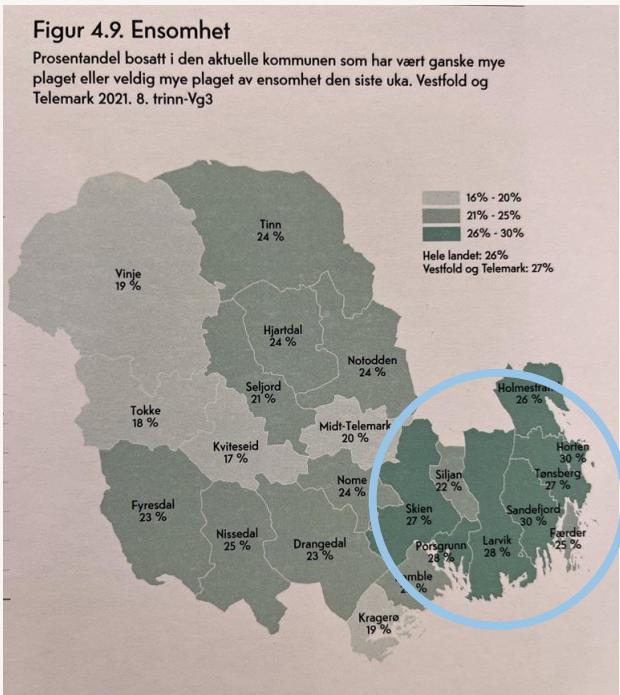

- Når man ikke har noen å spise lunsj med i kantina
- Når man har begynt på en ny skole et nytt sted
- Når du ikke er invitert med på den festen
- Når du gjør det bra på en prøve men ikke har noen å fortelle det til

Det som er synd er når følelsen av ensomhet blir varende.

Ungdata resultater - ensomhet (2021)

● VENNER

1 av 4 har vært plaget av ensomhet den siste uken.
93% har noen å være med på fritiden

● ENSOMHET

Prosentandel som har vært ganske mye eller veldig mye plaget av ensomhet den siste uke

03

Russetiden

- Elevene anerkjenner at russekulturen kan være problematisk, og mener at fylkeskommunen burde tilrettelegge for en mer inkluderende russefeiring. Det kan tilrettelegges ved eksempelvis et felles russestyre for alle skolene, fylkeskommunen kan bevilge penger til skolegensere for avgangskull og det kan også utarbeides en handlingsplan for en felles og aktiv russefeiring. - Vestfoldelevene

Hva kan dere gjøre?

Psykososialt
Rammebehov
Læringsmiljø

Hva kan dere gjøre?

- Felles arrangementer for russen og avgangselever
- Tilrettelegge for flere aktiviteter innad i klassen og felles for skolen
- Større andel av fylkesbudsjettet burde gå til utdanning
- Flere og mer tilgjengelige skole ansatte som f.eks miljø terapeuter og miljøarbeidere
- Fritidstilbuddet skal være bredt og tilgjengelig for ungdom i hele fylket
